

INFORM, INTERACT, ENJOY!

FIELD TRIPS THAT TAKE STUDENTS FROM LEARNING TO LAUGHING!

Countryside Family Farms invite you to consider planning a field trip to allow your students to engage their brains with hands-on learning! Our retention-friendly formats are designed to leave technology behind while your class enjoys two hours on our farm. Each field trip group will begin their stay with a 20-minute educational instruction on the topic of your choice, followed by time to peruse our farm and enjoy the homespun attractions that bring smiles and create memories.

Our educational portions have been constructed to match curriculum needs with age groups. Our attractions include the Orange Blossom Express, a train constructed of storage containers used on a farm and pulled by a 1960's Cub Cadet tractor, to our Jump Pillow, which inflates out of the ground to entice exercise and laughs! Rat Rollers, Tetherball, Giant Chess Board, Bull Lasso, Barnyard Ball Zone, Hillbilly Hootenanny, Ring Toss, and Tic-tac-toe Boards are among the energy-expending adventures included. PLUS, each student will get one shot with our Air Cannon, whether they aim for the target or see how far they can make it shoot! Fun on our farm is surefire! (During our Fall Festival season, we will also have the Corn Crib – a box filled with tons of corn kernels for kids to dig through!)

To end the field trip, each child will enjoy a small serving of our orange soft-serve ice cream, flavored only with our fresh-squeezed juice! (Lactose-free for those with dairy allergies).

EDUCATIONAL SEGMENTS OFFERED (choose one)

Grades K – 2

*Five Senses

*Florida Birds

*How Oranges Grow
